SUMMARY

Holds a second class upper degree in Information Technology from Abubakar Tafawa Balewa University Bauchi, Nigeria. I am passionate about Software Development with less than a year experience in HTML, CSS, JavaScript React Js, Vue Js and Node js. I seek to utilize these skills to contribute towards organizational growth and development.

TECHNICAL SKILLS

(Language and Framework): HTML, CSS, Javascript (ES6), React Js, Vue Js, Node Js, Express and MongoDB.

(Domain): Slack, Trello and Agile Methodology.

WORK EXPERIENCE

Software Developer, Quicktel Solutions - August/2019 - to date - Minna, Niger State.

- Utilized Node js at Backend to build a cooperative loan application and also integrated Paystack online payment on the web application.
- Implemented mongoDB for the cooperative loan app database.

NYSC, Armed Forces Command and Staff College - April/2013 to March/2014 - Jaji/Kaduna, Nigeria.

- Engaged in routine computer maintenance, installations and attempting repair of minor complaints in the college.
- Served as students' guide on computer application especially CBT examinations.
- Engaged in teaching students the use of MS Word, Powerpoint and Excel.

Industrial Trainee, Computer Unit, Federal Medical Centre - 2010 to 2011 - Bida, Niger State.

- Engaged in the hospital's data entry.
 - Engaged in routine computer maintenance, installations and attempting repair of minor complaints in the hospital.
-

SIDE PROJECTS

Asusu Loans (<https://cooperative-frontend.herokuapp.com/>): A web application that enables users to contribute to a group fund and apply for loans on certain criteria.

Weather Man (<https://github.com/Isyaku/Weather-Man>): A web weather application that tells the temperature of any city a user wants to know. Built using Node js, Express and ejs

Club Quiz (<https://github.com/Isyaku/Club-Quiz>): A web quiz application that allows an examiner to set questions, users to attempt the questions and stores the result. Built using Node js, Express, ejs and mongoDB.
